The Texas Department of Criminal Justice is responsible for the supervision of over 110,000 parolees. Of this population, more than 13,000 have failed to comply with the terms and conditions of their parole. Some have even committed additional crimes since their release. Subsequently, a felony parole warrant was issued for their arrest. Most of these targeted offenders have an extensive criminal history and continue to offend while a fugitive.

FUGINET can assist your agency in the apprehension of these individuals in your area.

FUGINET

Provides Texas parolee/parole violator information to law enforcement agencies throughout the country. This investigative tool helps to facilitate the location and apprehension of these targeted offenders.

The Latest on FUGINET:

Our database now houses information on both parolees and every release across the state. Flat discharge information is now available to law enforcement agencies.

TDCJ is the only State Agency that maintains data on this targeted population specifically after their release. OIG brings this information to you.

FUGINET includes inmate images, parolee images, employment history, residential history, visitation lists and history, vehicle information, and gang affiliation if applicable.

Gang:	TANGO SAN ANTONIO
Status:	Confirmed
Status Date:	12/07/2016

Please contact the Texas Department of Criminal Justice - Office of the Inspector General at 936-437-5057 or oig.gangs@tdcj.state.tx.us for additional information in regards to gang affiliation.

Physical descriptions are included in each record, with a more detailed inclusion of a parolee's scars, marks, and tattoos.

FUGINET in Real Time

FUGINET is now updated every 20 minutes, with Warrant information updated every minute.

Incredible Features

- All addresses relating to a parolee are imported to a mapping program to provide a visual of their location.
- Inmate logs allow users to add notes to any record so that other agencies can be aware of additional information from the field.
- Users can submit additional photos to show various appearances or SMT.
- New search features allow for a more comprehensive search.
